

**HALL QUESTIONNAIRE**  
**WOULD YOU BE ABLE TO COMPLETE & RETURN BY THIS TUESDAY OWING TO**  
**THE SHORT TIMESCALE FOR THE FUNDING BID!**

Fetlar Community Association (FCA) has successfully submitted an expression of interest to the Climate Challenge Fund (CCF) & been invited to submit a full bid. This will cover a number of energy improvements in the hall including more insulation, draught proofing and LED low energy lighting. It will also include work by FCA to tackle energy use in the wider community and as part of this element FCA will be seeking funding for home energy meters and samples of LED bulbs which would be provided free of charge to the community.

The CCF looks to fund projects that can deliver lasting change in communities in relation to a number of factors. In our case these would principally be energy use in community buildings and in the wider community and also to an extent transport eg by sharing transport to events. Carbon reduction will be an important element in consideration of our application.

To help meet the requirements to address lasting change, which is key to us getting the funding for our improvements to the hall & community, the application will include a number of initiatives to help the community and local businesses better understand their energy use and how they can save both energy and money. FCA will work with various local and national organisations to advise us, businesses and community members.

The CCF requires that we gather baseline information so we can show how successful we have been in affecting changes in people's behaviour against our target figures. This survey is being done on a household basis and we would appreciate your cooperation not just in filling out your questionnaire but also by engaging with the project. It might well save you money!

**Notes for completion** - please circle the option/options that best represent your answer or fill in the numerical/other data where you see the dotted lines. If you don't know exactly an estimate is fine.

**YOUR HOME**

1. Please provide your house name and/or number.....

2. When comparing your home to a modern property do you consider the insulation of your home to be - Very poor    Poor    Average    good    Meets or exceeds current regulations

3. Do you consider yourself to be in fuel poverty (energy costs are more than 10% of your income)

YES    NO    MAYBE

4. Would you be interested in the loan of an energy monitor for your home and some sample LED low energy bulbs to try out?

YES    NO    MAYBE

5. Have you had either an energy assessment or extra insulation installed in your property recently. If you are unsure please go to the next question.

Energy assessment    Extra insulation    Other eg low energy lighting .....

**Continued overleaf.....**

Please return forms to the development office

**HALL USE**

6. Would a warmer more energy efficient building impact on your use of the hall to:

a) Increase your use of the hall YES NO MAYBE

b) Help to encourage development of new community activities and uses for the building  
YES NO MAYBE

7. Would you be interested in cookery classes and demonstrations using locally grown ingredients with local recipes. Topics covered could potentially include: Bread/Bannock making, preserving, making use of local ingredients & traditional recipes, etc

YES NO MAYBE

If there are specific topics you would be interested in please note these below.

.....  
.....

8. Would you be interested in learning opportunities supporting local growing or composting? This could include subjects such as Polyunnel/Polycrub growing, crop selection and rotation, natural weed and pest control, pollination and bee keeping.

YES NO MAYBE

If there are specific topics you would be interested in please note these below.

.....  
.....

9. How do you currently get to the hall?

Own vehicle shared use of private vehicle bicycle on foot

10. If you use your own vehicle would you consider sharing transport?

YES NO MAYBE

11. How many times in the last year have you visited the hall.

0 1 5 10 15 20 25 30 35 40 45 50+

12. Is this more or less than in previous years.

A lot more A little more about the same a little less a lot less don't go now

13. If you use the hall less is this due fully or in part to the building being cold?

YES YES IN PART NO DON'T KNOW

**THANK YOU!**

Please return forms to the development office
